

**SUPER SLIM INFRARED SMART SENSOR MOTION DETECTOR for LIGHTING**

Model: SSW-S

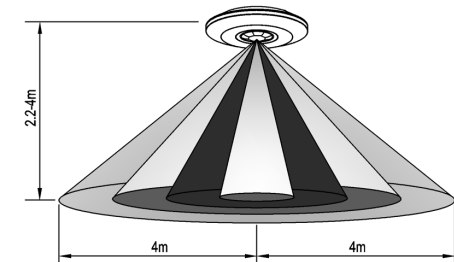

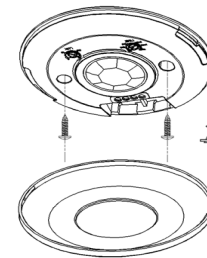

**SPECIFICATION:**

- Input Voltage** : 220V+/-10%, 50/60Hz
- Detection Range** : 180°/360°
- Eye Sensor** : TriSensor tech
- Motion Speed:** : 0.6-1.5m/s
- Ambient Light** : < 3-2000LUX (Adjustable)
- Power Consumption** : Approx 0.5 W
- Detection Distance** : 8m (<24°C) adjustable
- Time Delay** : 10sec±3sec to 15min±2min (Adjustable)
- Mounting** : Surface
- Dimension** : L115 X W115 X H24.3mm
- Installation Height** : 2.2 - 4m
- Compliance** : MS 983, IEC598-2-22

- Benefits:**
- High durability
  - No replace bulb
  - Easy Installation
  - Maintenance Free
  - Power saving 80%

IP 30

**SPSW-S**

**SSW-IP65**

**SSW-WR**

**SSW-R**

**SSW-OEM**

Well suited to circulation areas, integral garages, store rooms, toilets, kitchens, common stairs wells or corridors where there are frequently people passing in an out of an area and the lighting often gets left on accidentally. Can be installed on wall, ceiling and anywhere of your house.
